# THE ART OF JAZZ

## From the Foreword

How does jazz look? . . . Jazz appeals most directly to the ear, but also engages the eye. Yet the visual dimension of jazz is often overlooked. There are books about jazz photography, specific record labels, album cover design, and museum exhibitions, but almost nothing has been published taking on the overall picture of the music.

This is the first book to offer a 360-degree look—in the literal meaning of that word—at the history of jazz, from its nineteenth-century roots to its twenty-first-century eclecticism.

Paintings and drawings. Portrait, studio, and documentary photography. Sheet music covers, record albums, posters, and advertisements. Imagery of musicians' clothing, hair, eyeglasses, and facial expressions. . . .

From the realm of jazz came some of the era's leading creative artists, pursuing instantaneous, high-level communication and expression. The brilliance of these artists affirms some of the most admirable values of our time: originality, individuality, risk-taking, cultural diversity, creative collaboration, and innovation.

All were basking in the freedom that jazz affords and encourages.

"If jazz means anything," wrote Duke Ellington, "it is freedom of expression."

—John Edward Hasse, Curator Emeritus of American Music, Smithsonian Institution

Innovative, energetic, spontaneous: the music that changed art forever.

Jazz changed the game for more than just music. This lush, stunning collection of album covers, posters, and other works of art lays out the influence of jazz on visual media decade by decade over the last century.

Over 300 images, some from private collections, are accompanied by engrossing essays on the rise and many reinventions of jazz. World-renowned jazz authority Alyn Sipton covers such topics as "Jazz Fusions," "Zoot Suits," and "The Changing Image of Miles Davis" with wit and style.

The perfect gift for jazz fans, US history buffs, art appreciators, and anyone whose coffee table needs a little jazzing up!

## Meet the Authors

Jodi Ecker Detjen

Kelly Watson

Jodi Ecker Detjen and Kelly Watson are the founders and managing partners of Orange Grove Consulting, which helps organizations improve gender equity and inclusivity through consulting tools and training programs.

### What would you say is the biggest challenge facing modern workplaces?

The workplace is rapidly diversifying, yet leaders struggle with how to include people who are different. We don't recognize when diversity is missing, we don't measure it, and we don't train it. So while the bottom of the pipeline may finally be attracting fair representations of diverse workers, strongly embedded counterforces ensure we will still have homogeneity at the top for the foreseeable future.

### In our time of #MeToo, are you seeing positive changes in gender inequity?

Yes: A veneer has been cracked. What #MeToo did was show women that they were not alone—that their harassment and bias experiences were not unique, and thus not their fault. It seems strange, but this was eye opening for women because the basic underlying assumption was shown to be flawed.

### In top-down management structures, how do organizations REFRAME?

Well, it always has to start with the top. But a flawed assumption most organizations have is that they operate a meritocracy. So, this needs to be REFRAMED. We don't have a meritocracy, or else there would be equal representation. Too many times people assume that those in top positions will "naturally know" how to "do" inclusion. How would they know that? By looking at it as a skill, rather than judging, it then can be taught and learned.

### What inspired you to found Orange Grove Consulting?

We realized the traditional approach to gender equity failed to recognize the business opportunity gender equity provides for organizations. And let's face it, money talks. Because of our 50+ years of combined operational consulting experience plus our data-based academic research, we felt we could approach the problem from the business perspective and deliver tangible ROI.

## Empower your organization through equity.

Gender equity at work. Whose problem is it? And how can one person or one organization make a dent in such an entrenched social issue?

Let's take a look at the facts: empowering women empowers everyone. Workplaces that treat women equitably and pay them fairly do better across the board. And most critically: gender equity is not a zero-sum game. Everyone stands to gain.

*Reframe* provides a clear and practical guide to understanding gender inequity, implementing solutions, and building an enduring, positive organizational culture. Based on principles of self-awareness, flexibility, communication, openness, and mutual respect, the *Reframe* approach puts real power to effect real change in your hands—whether you're an intern or an executive!
