

THE GO-TO GRAD GIFT FOR ALL AGES

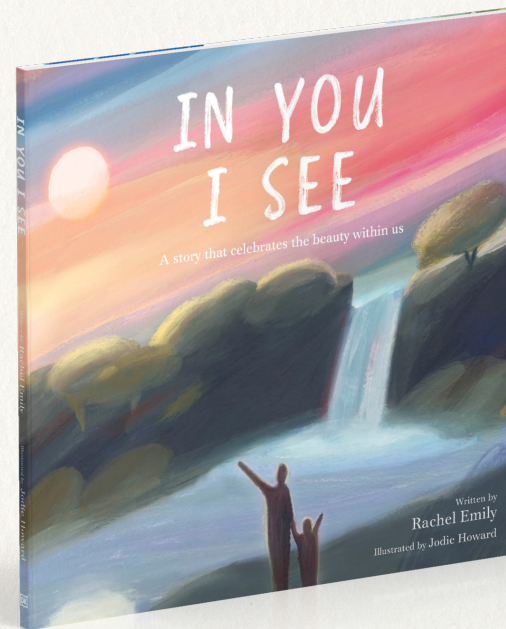

"We can't always protect loved ones from life's difficulties, nor can we expect to always fully understand or anticipate what their challenges will be, but we can give them a

*place to come back to. A message that will always be true. That's what *In You I See* is to me.*

Though it was written for the kids in my life it could equally have been written for my sister, my friends, my partner or anyone I hold dear—young and not so young. The message is there for anyone who needs to hear it."
