NOTE FROM THE PUBLISHER

We created these books because we wanted to avoid making just another “how to draw” book for kids. When looking to buy these kinds of books for our own kids, we noticed that so many of the competitive titles lack an accessible layflat option, come with thin paper that easily bleeds through, and include extra lines in the instructions that leave kids frustrated. These books have been tested by our own kids to make sure they’re child-approved, and come with shimmering foil on the cover that kids will love.
