Tech Book Essentials from No Starch Press

Hacking & Security

As the leading publisher of hacking and cybersecurity titles, No Starch Press can be found on the bookshelves of renowned infosec consultants and threat hunters around the world—in fact, many of them turn to No Starch when they're ready to write a book themselves. That's why no tech section is complete without our numerous bestsellers in this important genre.

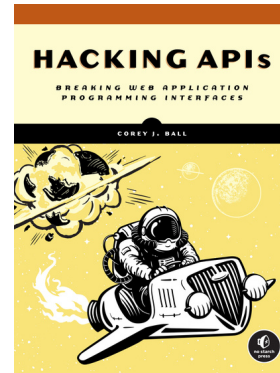

Key Selling Points

- All titles cover modern, cutting-edge techniques
- Books target range of skill levels from beginner to pro
- Expert authors with vast experience in the security field
- Popular for years, with many titles are on their 2nd or 3rd printing
